

CLKD – China Legal Knowledge Database

For the most current and accurate resources on Chinese laws and regulations, legal researchers in China turn to the China Legal Knowledge Database.

Now this invaluable resource is available from the China National Knowledge Infrastructure.

Produced by Tongfang Knowledge Network in Beijing, the China National Knowledge Infrastructure is the most comprehensive online resource for accessing China's intellectual output.

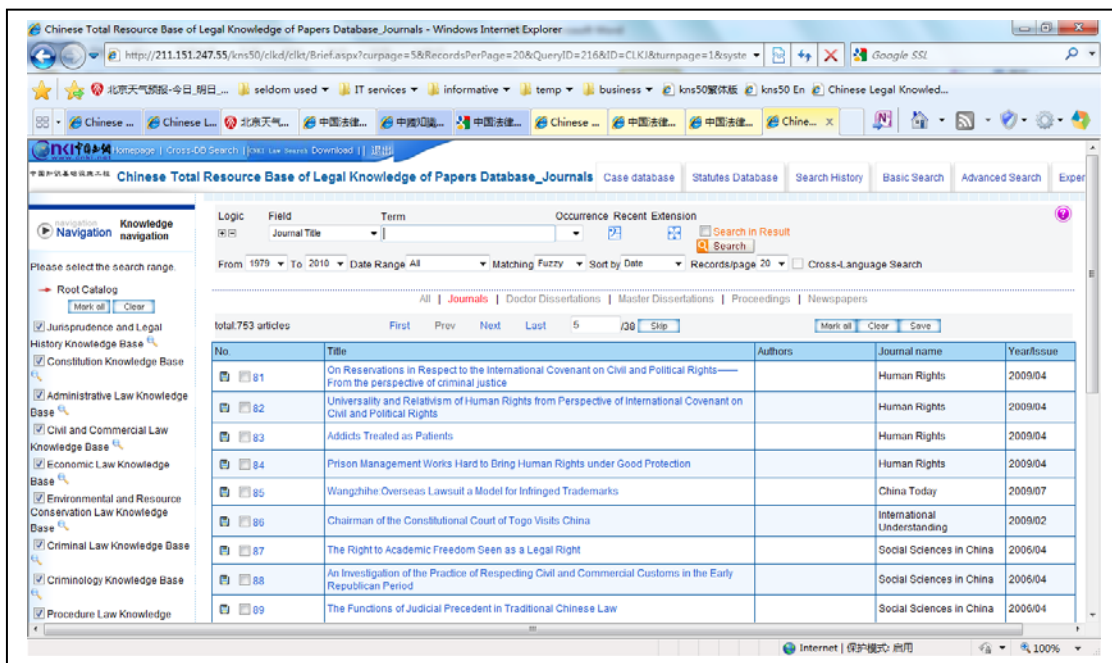

Integrates the only content officially sanctioned by the People's Republic of China.

Soon the foundation for any serious legal research on China, CNKI is hosted in North America by East View.

Follow both national and local laws enacted from 1949 to date.

Database	Content	# of Records
