

Knizhnaia letopis': Russia's Book Index 1993-1997 Backfile Added

Knizhnaia letopis' (The Book Index) is simply the most definitive reference guide available to Russia's published books.

Most subscribers of East View's Universal Database of Russian National Bibliography (UDB-BIB) currently have online access to *Knizhnaia letopis'* from 1998-2014, and *Knigi Rossii* from 2015.

Recently, East View negotiated with the Russian Book Chamber to load additional *Knizhnaia letopis'* content from 1993 to 1997 to UDB-BIB. Researchers can now get online access to the most comprehensive bibliographic resource on Russian printed books.

East View's UDB-BIB allows browsing through the subject classification system to find relevant reference by topic. Users will find three-levels of the subject classification system translated into English in addition to the original Russian, as well as complete transliteration of all Cyrillic text. This allows users to effortlessly access millions of Russian bibliographic citations in all disciplines from publishers, by year, author, subject, title, or by any keyword.
