

The largest electronic library of Russian legal information

«KODEKS»

Law Databases

Kodeks is an online database of Russian legislation – including Moscow, St. Petersburg, republics, regions, and territories of the Russian Federation – international law, commentary and other materials.

«KODEKS» — **It's Reliable**

Translations are verified and fully comply with the original. Tables, figures, formulas, and geographical data are included in the text.

«KODEKS» — **It's Convenient**

Search by issue or subject, sort and filter your results, and convert the data into Microsoft Word or Excel.

«KODEKS» — **It's Accessible**

Whether one or an unlimited number of users, «KODEKS» may be accessed via the Internet.

«KODEKS» — **It's Fast**

The network is updated daily with the latest legislation from executive, legislative, and judicial authorities at federal and regional levels.

«KODEKS» is now available through East View Information Services.
