China Core Newspapers

中国重要报纸全文数据库

CCND at a Glance

- Language:** Chinese
 - Interface:** English + Chinese
 - Abstracts:** Chinese
 - Archive:** 2000–present
 - Titles:** Over 650
 - Articles:** Over 7.4 million
 - Updates:** Daily
 - Data Format:** Full text, HTML
 - Producer:** Tongfang Knowledge Network Ltd. (TKN)
- 
- Platform:** CNKI

China Core Newspapers (CCND) collects content from core newspapers published in mainland China, covering over 7 million articles since 2000, with daily updates. CCND selects newspapers with strong influence, high-quality reporting, and a wide range of readers, including central newspapers, industry and professional newspapers, and core government newspapers – over 650 titles in total.

Articles in CCND cover a wide range of topics, including domestic and international news, laws and regulations, guidelines and policies of the CCP, economic and industrial analysis, culture, and more. The database features multiple search methods, including basic, advanced, professional, sentence, and publication source. Users can navigate content using the 10 subject series navigation, or browse newspaper titles at the national and local level.

CCND features CNKI's Knowledge Network Node, with all articles linked to similar newspaper content, as well as similar content from academic journals, theses, dissertations, conference proceedings, yearbooks, etc.

CCND China Core Newspapers

Content

- CCND includes content from over 650 newspapers, with over 7 million articles since 2000 and daily updates of over 8,000 articles:
