China Master's Theses

中国优秀硕士学位论文全文数据库

CDMD-CMFD at a Glance

- Language:** Chinese
- Interface:** English + Chinese
- Abstracts:** English + Chinese
- Archive:** 1984–present
- Contributing Institutions:** Around 800
- Papers:** Over 5.6 million master's theses
- Updates:** Daily
- Data Format:** Full text, PDF or HTML
- Producer:** Tongfang Knowledge Network Ltd. (TKN)

- Platform:** CNKI

China Master's Theses (CDMD-CMFD) full-text database provides an unparalleled look into the academic research of China's most prestigious institutions. CDMD-CMFD is the most comprehensive, highest quality database of master's theses from China, representing around 800 masters-granting institutions, including the Chinese Academy of Sciences, the Chinese Academy of Social Sciences, and the Chinese Academy of Agriculture, among others.

CDMD-CMFD contains over 5.6 million master's theses on a wide range of topics, including basic science, engineering and technology, agriculture, medicine, philosophy, and humanities and social sciences. Users can browse by subject or degree grantor, or search multiple fields in quick, basic, professional, fund or sentence search modes. CNKI's Knowledge Network Node, literature analysis and citation analysis tools offer extended information and discovery of related content.

CDMD-CMFD China Master's Theses

Content

- CDMD-CMFD contains over 5.6 million master's theses from 802 masters-granting institutions since 1984.
- CDMD-CMFD covers all areas of research and is organized into 10 subject series:

Science and Technology Titles

Series A: Physics, Astronomy, Mathematics

Series B: Chemistry, Metallurgy

Series C: Industrial Technology & Engineering

Series D: Agriculture

Series E: Medicine/Health

Series I: Electronics/Information Science

Social Science and Humanities Titles

Series F: Literature/History/Philosophy

Series G: Politics/Military Affairs/Law

Series H: Education/Social Sciences

Series J: Economy & Management

Features and Functions

- Comprehensive coverage of Chinese master's theses, covering more than 99% of all degree grantors.
- Complete coverage of master's theses from "985 Project" and "211 Project" institutions, Chinese Academy of Sciences, Chinese Academy of Social Sciences, Chinese Academy of Agriculture, key state laboratories, etc.
- Systematic collection of scientific research findings from "863 Program" (National High-tech R&D Program), "973 Program" (National Basic Research Program), National Natural Science Foundation of China, and National Social Science Foundation of China, reflecting major achievements of national research programs.
- Reflects China's latest research achievements; updated daily and published at the latest 1.5 months after degree awarding, which is more than 10 months earlier than other similar products.
- The only official full-text master's theses publication product with ISSN and CN codes.
- Browse content or search multiple fields in basic, advanced, cross-database and cross-title search modes.
- CNKI's Knowledge Network Node, literature analysis and citation analysis tools offer extended information and discovery of related content.
- Read content online (HTML) or download full text (PDF and CAJ).

China Research Gateway (CRG) presents the full spectrum of Chinese research, with exhaustive representation of STEM, social science, and humanities disciplines. Featuring an unparalleled breadth of sources, including scholarly journals, monographs, statistical publications, government documents, newspapers, dissertations, conference proceedings, patents, and many other content types, CRG offers a centralized means for discovery and access to this rich trove of research, specifically tailored to serve the needs of North American scholars and institutions.
