CPCD-IFPD at a Glance

Language: English + Chinese
Interface: English + Chinese
Abstracts: English + Chinese
Archive: 1981–present
Papers: Almost 1 million
Updates: Daily
Data Format: Full text, PDF or HTML

Producer: Tongfang Knowledge Network Ltd. (TKN)

Platform: CNKI

International Conference Proceedings (CPCD-IFPD) collects proceedings of international conferences, with a focus on conferences hosted or organized by well-known and respected international organizations and academic institutions. These include conferences hosted by organizations such as the Institute of Electrical and Electronics Engineers, the international society for optics and photonics, Russian State Specialized Academy of Arts, the International Association of Computer Science and Information Technology, and the International Institute of Chemical, Biological and Environmental Engineering. CPCD-IFPD includes almost 1 million papers from almost 10,000 international conferences on a wide range of subjects, from 2010 to present, with papers from some continuous conferences dating back to 1981. CPCD-IFPD offers robust navigation and search tools, and provides expanded information for each paper, including links to similar documents, documents from related authors and institutions, and documents on related subjects.

CPCD-IFPD International Conference Proceedings

Content

- International Conference Proceedings includes almost 1 million papers from almost 10,000 international conferences. Content within CPCD-IFPD is organized into 10 series, with 168 subjects:

Science and Technology Titles

Series A: Physics, Astronomy, Mathematics

Series B: Chemistry, Metallurgy

Series C: Industrial Technology & Engineering

Series D: Agriculture

Series E: Medicine/Health

Series I: Electronics/Information Science

Social Science and Humanities Titles

Series F: Literature/History/Philosophy

Series G: Politics/Military Affairs/Law

Series H: Education/Social Sciences

Series J: Economy & Management

Features and Functions

- Navigation:** Supports browsing by conferences, proceedings, sponsors, specialties (subjects), industries, parties and administrations.
- Search:** Offers quick, basic, professional, scholar, sentence, and source searches, as well as searching within proceedings. Users can search multiple fields, including subject, title, keywords, abstract, full text, proceeding title, references, China Library Classification (CLC) code, author, first author, institution, and conference date, name, level, sponsor, and contributor.
- Grouping and sorting:** Group results according to subjects, organizers, research level, authors, agencies, and more.
- Knowledge network:** CNKI's Knowledge Network Node provides expanded information for each paper including citation network, similar documents, documents from related authors and institutions, and documents on related subjects.
- Fast updates:** Papers are updated online no more than one month after print publication.

China Research Gateway (CRG) presents the full spectrum of Chinese research, with exhaustive representation of STEM, social science, and humanities disciplines. Featuring an unparalleled breadth of sources, including scholarly journals, monographs, statistical publications, government documents, newspapers, dissertations, conference proceedings, patents, and many other content types, CRG offers a centralized means for discovery and access to this rich trove of research, specifically tailored to serve the needs of North American scholars and institutions.
