

More than numbers. Census data provides unparalleled insight into the lives of individuals. East View presents the Ecuador 2001 Census as part of the East View Global Census Archive® (GCA). The Ecuador 2001 Census addresses a wide range of topics at the highest level of detail possible.

Making information available. When initially acquired, the census data is stored in a complex database structure, with attribute descriptions in Spanish, limiting access to those with significant database management and programming experience. East View simplifies access, formatting the collection into an easy-to-use geodatabase which can be visualized using any GIS software and providing a comprehensive guide. Additionally, East View provides the original census documentation, allowing researchers to see first-hand how the data was gathered.

Note: The Ecuador 2010 Census (GIS Edition) is also available through GCA

CENSUS OVERVIEW

Year: 2001	Polygons at ADM: 32,115
Population Coverage %: 100	Number of Questions: 32
Geography Coverage %: 100	Number of Answers: 1,084
Smallest Geography Name: Sectores	Data Points: 34,812,660
ADM Level: 6	Urban/FG: FG

Notes

- Population Coverage % indicates the percentage of total population of the country during the census year that this census covers
- Geography Coverage % indicates the percentage of the total area of the country covered by the ADM polygons in this census
- Urban/FG indicates if this census provides Full Geographic (FG) coverage or if coverage is limited to Urban (U) or populated places

DELIVERABLES

The Ecuador 2001 Census has 100% population coverage, over 34 million data points, and consists of:

Geodatabase

- Intuitive organization of census data
- Administrative boundary vector data at ADM 6 (Sectores) for 32,115 census units
- Vector and aggregated tabular data at the Sectores level

Shapefiles

- All vector and census data in ESRI Shapefile format

Census Guide

- Detailed descriptions for 1,084 census variables

Original Census Documentation and Database

- Delivered in native format
- Census questionnaires

Metadata

- Full attribute level metadata in FGDC ISO format

ADM 6/0 boundaries for all of Ecuador, with inset detail of the Galapagos; area in red, over Machala, is available as sample data
