Uncommon Information  
Extraordinary Places

## EAST VIEW GLOBAL PRESS ARCHIVE®

The EastView Global Press Archive® (GPA) is an expansive and diverse collection of newspapers from around the world. GPA is an outgrowth of landmark initiatives by Stanford Libraries and the Hoover Institution Library & Archives to preserve thousands of news publications and make them digitally accessible.

Newspapers in GPA are presented in full-image and full-text format and the platform is specifically optimized for academic use. The archive is continuously growing, with publications in more than 30 languages and from more than 100 countries. Many publications are made available digitally for the first time, bringing immense new value for scholarly research. Learn more at [eastview.com/gpa](http://eastview.com/gpa)

## East African Newspapers Collection

This collection, sponsored by the Center for Research Libraries, comprises three key newspapers from East Africa, covering the period from the 1940s to the early 2000s. These titles offer the most authoritative chronicle on events: the widespread decline of colonialism as independence movements swelled and local, autonomous self-governance took hold throughout the region, including famine, drought, political uprisings, border disputes, and wars.

- *Daily Nation* from Nairobi, Kenya (1962–2017, in English)
- *The Ethiopian Herald* from Addis Ababa, Ethiopia (1943–2014, in English)
- *The Monitor* from Kampala, Uganda (1993–2003, in English)

## Daily Observer Digital Archive (Liberia, from 1981)

*An Open Access collection sponsored by the Center for Research Libraries*

*The Daily Observer* (aka *Liberian Observer*), founded in 1981, is an independent national newspaper chronicling all facets of life, culture, and political development in Liberia. It is known for its investigative reporting and independent editorial stance.

This complete archive of *Daily Observer* serves to document a dynamic phase in the modern history of Liberia, from the late twentieth century to the present.

AREA STUDIES INITIATIVE

East View presents the **Global Press Archive Area Studies Initiative**, featuring resources to support African, Asian, Latin American, Middle Eastern, and Slavic studies. The Area Studies Initiative will contribute significant Open Access resources for the global scholarly community via community-supported funding.

Two African Studies titles are included in the 2025 Offer as Open Access: *New Nigerian* from Kaduna, Nigeria (1966–2001, in English) and *L'Essor du Congo* from Elisabethville, Congo (1930–1969, in French). Another African title – *Die Transvaler* from Johannesburg, South Africa (1938–1985, in Afrikaans) – is also available through the 2024 Offer.

Please see [eastview.com/asi](http://eastview.com/asi) for more information on Area Studies Initiative offers and benefits.

## GLOBAL CENSUS ARCHIVE®

An innovative program from East View to collect official data and publications issued by the national census authorities of more than 200 countries from the early 19th century to the present day. Users can browse historical publications as full-image, full-text e-books, download tabular data in Excel format (for born-digital publications), and download GIS data (where available) – all from a unified discovery interface.

GCA offers extensive coverage of Africa, with content from 1820 to present for numerous countries. GIS census data is also available for Burundi (2008), Côte d'Ivoire (2014), Egypt (2017), Malawi (2018), South Africa (2011), and Tanzania (2012). **Read more:** [eastview.com/gca](http://eastview.com/gca)

## LANDSCAN GLOBAL POPULATION DATABASE

LandScan is a global population database showing geographical distribution of population at one-kilometer resolution over an average 24-hour period. Developed by the US Department of Energy's Oak Ridge National Laboratory, LandScan is the industry standard for global population distribution. East View offers the archive of LandScan from 2000–2020.

LandScan is a useful application for academic, government, non-profit and commercial purposes including: risk assessment, public health, humanitarian aid, disaster response, defense intelligence, and network optimization. **Read more:** [eastview.com/landscan](http://eastview.com/landscan)

## MAPVAULT®

MapVault delivers online streaming access to thousands of authoritative map series from across the world, including the African continent. Use MapVault's platform to easily view tiled and georeferenced map series, or download the data as layer files for use in GIS software. **Read more:** [eastview.com/mapvault](http://eastview.com/mapvault)

## MAPS & ATLASES

East View offers a wide variety of atlases, maps, and geospatial data from Africa, in print or online, covering various geographic areas, languages, and thematic topics. **Read more:** [eastview.com/atlases-maps](http://eastview.com/atlases-maps)

## About East View

For over 30 years, East View has been providing high-quality information products and services in English and other languages to a wide array of academic, commercial, and government customers throughout the world.

We are growing our offerings from Africa and strive to become your vendor of choice.

Whatever information you seek from Africa, East View already has it or can procure it. East View is committed to sourcing uncommon information from extraordinary places. Continuing traditions started over three decades ago.

We look forward to serving you.

## DIGITIZATION SERVICES: ACCESS YOUR ARCHIVES ONLINE

Today's students and faculty increasingly expect access to all the library's resources online at all hours of the day. It's in the DNA of libraries to provide their researchers with the best and most extensive access to information, but the nature of print or microform collections limits access to researchers unable to visit the library during open hours.

Librarians can now devote more time and energy to what they do best – preserving and promoting the intellectual output of their institution – with East View's service solutions, including digitization, preservation, conversion, hosting, and other value-added services.

Digitizing these unique collections helps libraries connect those resources with their researchers and researchers to your resources. Any content owned by the customer institution can be converted into a more accessible online resource through our comprehensive conversion service, which includes digitization and hosting.

East View, a trusted partner to academic libraries since 1989, offers an unmatched array of digital conversion and hosting services for libraries seeking to optimize their balance between physical and digital collections. Our extensive background in digitization's toughest terrain – converting primary source materials OCR'd in non-English, English, and other Roman scripts into full-image scans with searchable full text – makes East View the ideal partner to help libraries define metadata character sets and special collections for area studies.

### Supporting you through the entire production cycle

At East View we understand that each project is unique. Our library consultants will work with you to provide the appropriate level of solutions. We offer a full range of services for digital conversion and hosting, including:

- Digitization and OCRing
- Sourcing materials to complete collections
- Custom metadata creation
- Rights diligence
- Project management
- Development of Open Access or Hybrid Open Access products
- Archival preservation
- Hosting for long-term online access
