## EAST VIEW GLOBAL PRESS ARCHIVE® AREA STUDIES INITIATIVE

The Area Studies Initiative is the Global Press Archive program's newest collaborative engagement with academic libraries to support the production of a diverse range of global newspaper archives that align with the collection goals and strategies of librarians from the five major area studies disciplines – African, Asian, Latin American, Middle Eastern, and Slavic.

AREA STUDIES INITIATIVE

The Area Studies Initiative supports the Global Press Archive program's existing goal of creating the most comprehensive and accessible collection of digital newspaper content from around the world and includes an annual offer of Open Access and in-copyright newspaper archives. See [eastview.com/asi](http://eastview.com/asi) for information on the 2024 Offer and 2025 Offer.

## OPEN ACCESS COLLECTIONS

East View offers several Open Access digital archives through Global Press Archive, created with support from the Center for Research Libraries or as part of the Global Press Archive Area Studies Initiative. Learn more at [eastview.com/gpa](http://eastview.com/gpa).

### El Mundo Digital Archive Puerto Rico | In Spanish | 1919–1990

Founded in 1919, *El Mundo* (The World) was a respected, conservative newspaper from Puerto Rico and was widely considered a key source for news until it ceased in 1990. Key topics covered by the newspaper include industrialization of Puerto Rican society, the Great Depression, territorial relations with the United States including citizenship and activities of independence movements such as the Macheteros and FALN, the rise of the Popular Democratic Party, the Ponce massacre, the Ley de la Mordaza (Gag Law) and more.

Open Access to this collection is made possible through the generous support of the Center for Research Libraries and its member institutions.

### Independent and Revolutionary Mexican Newspapers Mexico | In Spanish | 1807–1929

This collection traces the evolution of Mexico during a pivotal, and tumultuous, period. Comprising nearly 1,000 titles from Mexico's pre-independence, independence, and revolutionary periods, the newspapers in this collection provide rare documentation of the dramatic events of this era and include coverage of Mexican partisan politics, yellow press, political and social satire, as well as local, regional, national, and international news.

The publications that comprise the Independent and Revolutionary Mexican Newspapers collection have been made available by the Nettie Lee Benson Latin American Collection of the University of Texas at Austin. Important contributions were also made by The Latin American Library of Tulane University.

Open Access to this collection is made possible through the generous support of the Center for Research Libraries and its member institutions.

## Global Census Archive®

East View presents **Global Census Archive® (GCA)**, an innovative program to collect official data and publications issued by the national census authorities of more than 200 countries, from the early 19th century to the present day, providing a key resource for scholars and analysts to find current and historical census data to support critical research into our changing world.

GCA provides a single platform experience to explore the world's census publications: all countries and regions, the complete depth of published census materials, including original census publications in e-book form, as well as modern tabular data in Excel format and GIS datasets for advanced users.

This truly global collection contains all available primary source and official census publications associated with a given census. Presented on a customized platform, GCA currently contains millions of pages of publications and billions of data points in GIS format, with more content continually added as new censuses are produced across the globe. Users can browse historical publications as full-image, full-text e-books (in any language), download tabular data in Excel format (for born-digital publications), and download GIS data (e.g., shapefiles of administrative boundaries)—all from a standardized platform optimized for accessibility and discovery. **Learn more at [eastview.com/gca](http://eastview.com/gca).**

## Global Geography Library

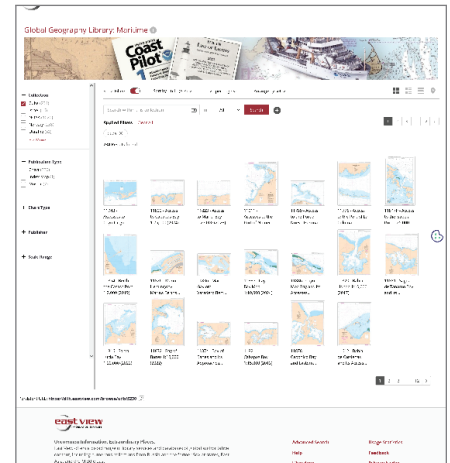

Global Geography Library (GGL) is a digital platform designed to address the challenges of storing and accessing large format materials such as atlases and charts, or large physical collections like national mapping series. With GGL, users can access a diverse collection of maps, charts, explanatory notes, and related materials covering various geographical regions, time periods, and categories.

GGL simplifies access to these materials by offering an easy-to-use, searchable platform for research and discovery, with the ability to integrate content into GIS systems via WMTS for further analysis. The platform can also be utilized for custom projects and collections via East View's GGL+ program.

### GGL Features

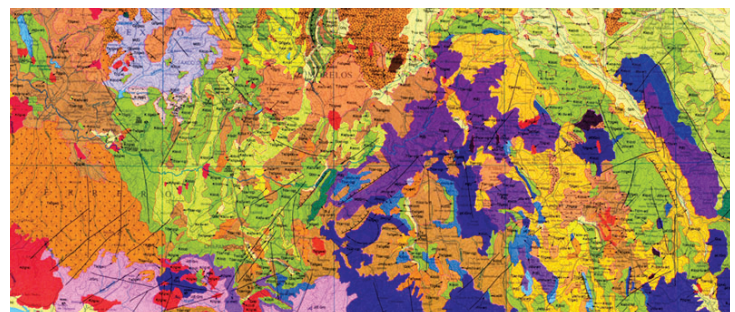

- IP authentication with 24/7 access for unlimited simultaneous users
- User-friendly interface
- Powerful searching capabilities
- Dynamic index maps for spatial discovery
- High-res viewing with IIF technology
- Seamless mosaics of map series
- GIS integration via WMTS
- Detailed item-level metadata
- Permanent URLs
- Citation generator
- Usage statistics
- MARC records available

GGL offers collections from across the globe, with new collections constantly being produced. **Contact [info@eastview.com](mailto:info@eastview.com) or visit [eastview.com/ggl](http://eastview.com/ggl) to learn more about GGL coverage over Latin America.**

## MapVault®

MapVault delivers online streaming access to thousands of authoritative map series from Central and South America, other regions, countries, and oceans. ## Digitization Services: Access Your Archives Online

Today's students and faculty increasingly expect access to all the library's resources online at all hours of the day. It's in the DNA of libraries to provide their researchers with the best and most extensive access to information, but the nature of print or microform collections limits access to researchers unable to visit the library during open hours.

Librarians can now devote more time and energy to what they do best – preserving and promoting the intellectual output of their institution – with East View's service solutions, including digitization, preservation, conversion, hosting, and other value-added services.

Digitizing these unique collections helps libraries connect those resources with their researchers and researchers to your resources. Any content owned by the customer institution can be converted into a more accessible online resource through our comprehensive conversion service, which includes digitization and hosting.

East View, a trusted partner to academic libraries since 1989, offers an unmatched array of digital conversion and hosting services for libraries seeking to optimize their balance between physical and digital collections. Our extensive background in digitization's toughest terrain – converting primary source materials OCR'd in non-English, English, and other Roman scripts into full-image scans with searchable full text – makes East View the ideal partner to help libraries define metadata character sets and special collections for area studies.

### Supporting you through the entire production cycle

At East View we understand that each project is unique. Our library consultants will work with you to provide the appropriate level of solutions. We offer a full range of services for digital conversion and hosting, including:

- Digitization and OCRing
- Sourcing materials to complete collections
- Custom metadata creation
- Rights diligence
- Project management
- Development of Open Access or Hybrid Open Access products
- Archival preservation
- Hosting for long-term online access
