## OVERVIEW AND BACKGROUND

The Fourteenth Population and Third Housing Census in Chile was carried out on April 22, 1970 by the National Institute of Statistics (INE). The census provided data on both a national and provincial level. In conjunction with the National Computing Agency (ECOM), INE developed and leveraged an assignment and validation program (ASIG) to eliminate statistical consistency errors. The United Nations Population Fund (UNFPA) and the National Planning Office (ODEPLAN) also provided support for the census. 8,884,768 inhabitants were enumerated.
