OVERVIEW AND BACKGROUND

The 2012 census in Cuba was carried out from September 15 to 24, 2012. Coverage of the census was 98.85% of dwellings and 98.81% of people. The census was the first to record a population decrease in Cuba since the 1899 census. The National Office of Statistics and Information (ONEI) established the methodological framework of the census through attendance of workshops in Brazil, Mexico, and Panama. Financial assistance was provided by the UNFPA. The Office prioritized cost saving throughout census operations.

GEOSPATIAL DATA

The geospatial data of the 2012 Cuba census includes 2 levels of pol-admin divisions. As of the v 1.0 release, the smallest-unit geography (Municipios) were not yet publicly available.

Polygonal coverage for the country is complete.

Total attributes at the smallest geography level are 75,168. including in the following themes:
