OVERVIEW AND BACKGROUND

The 1983 Population Census of Burma was carried out from April 1st to April 5th, 1983 by the Immigration and Manpower Department, with assistance from the Central Census Committee, the United Nations Development Program (UNDP), the United Nations Fund for Population Activities (UNFPA), the US Agency for International Development (USAID), and the Norwegian government. It was the second post-war and eighth overall nationwide population census taken in Burma (Myanmar). A Post-Enumeration Check (PEC) was conducted one year after the census to evaluate its coverage and accuracy. The results of the census were released in full in 1986. 35,307,913 inhabitants were enumerated.
